CLERK: Just a minute. There is an amendment, Mr. President, offered on 852 offered by Senator Kime. (Read Kime amendment found on page 1140 of the Journal).

PRESIDENT: Senator Kime.

SENATOR KIME: Mr. Chairman, members of this body. This is just to take care of various people that take advantage of this law. They may have a house or a ranch or something out in the country about 35 miles with only a barn or a chicken coop out there. However, in the case that I have reference to they claim their residence there. The travel back and forth, the man does every day or every other day, and he charges mileage for every day. He has a house in town and lives in town. His children go to school in town. The children do not travel back and forth. However, as the law is now he can collect mileage for every day of travel. This amendment here will eliminate that infraction of the law, this abuse of the law as it is written now.
